Coming Events.

Sept. 22-24—Bridgton Fair.
Sept. 24-30, Oct. 1—West Oxford Fair, Fryeburg.

Horse Notes.

Beginning with the line back of the grand stand on the lower end of the grounds in unnumbered stalls we find Robert D. Waitt of Lewiston with two fast ones, namely: Lew Foster, entered in free for all, trot and pace, and Prince Heavy Westland in the 2.25 trot. Near by is Joan D. Are, entered by Z. J. Morse, Rumford, in the 2.27 trot and pace.

We find a large string in stalls 2, 3, 4, 5, 6, owned by Presque Isle Stock Farm, Presque Isle. They show Olga Frodgal, b. m., with a mark of 2.23, and will start in the 2.30 class. Whisper, a nice looking stallion with a 2.27 1/2 clip, will be given a chance in the 2.25 trot and pace. Simon, b. g., has a 2.15 1/2 mark and will make some step fast in the free for all, ward and pace.

Toney D., a beautiful five year old with a record of 2.19, will be started in the 2.19. Watchman, with a 2.24 1/2 mark, looks good and is entered in the 2.25 class.

In stalls 8, 9, will be found N. J. Foss of Cornish with Butcher Boy to be started in the 2.25 race, and Dr. Keen marked 2.19 1/2. Horsemen following the fair several years back will remember Butcher Boy on the Bethel track.

A young horse he showed considerable speed when owned and driven by Chauncey Bryant of Bethel, who placed this name on him, and since has not disappointed his present owner.

Stalls 10, 11, are taken by W. B. Stone of Lowell, and S. Ames of Bridgton. Princeton E. can be seen here and is to enter the 2.23 trot and pace.

Passing on we find in stall 23 Sable Prince, b. s., owned by Hall & Young of Bethel. This stallion is certainly a fine animal and put up a good appearance.

L. A. Hall uses him in heavy harness about his farm work and offers plenty of hard work along with speed. They also have in stall 24 B. L. Sable, another good looking. Roy Welch has the care of both horses.

A. J. Rowe, Auburn, occupies stall 29, showing Elk John, b. g., entered in the 2.27.

Eva L. b. m., entered in 2.40 trot and pace and owned by A. & Russell, South Paris, can be seen in stall 25. In fact the three following stalls hold good horse flesh from Mr. Russell's stable.

Odd Fellow is in stall 31 under the care of James Russell. He will start in the 2.23 trot and pace. C. J. Russell has Manilla Boy b. g. in stall 31 and looks like a winner in the 2.19 trot and pace.

F. O. Walker, Rumford Falls, offers a large string this year. He occupies stalls 37-43. Here can be found Archilean (Standard bred), son of Archille, 2.15 1/2, and Valence, 2.13 1/2. The string is under the efficient care of W. R. Blair.

Don't leave this section of the grounds without visiting the lower line of stalls again and look over the offering of Mountain View Farm, South Paris, here we find American Law (32.67) entered in the 3.25 trot and pace. Attorney at Law b. g., sire American Law, dam Nettie Waitt, is up in the three-year old class and ought to make good. J. P. Howland certainly has some fast ones in these two horses. In fact their record is too well known for comment.

Harry T. Jr. is just below the Stock Farm display. N. E. Preble of Lewiston is the trainer and has been working him out during the past three years. Wm. Nelson will probably be his driver if a start is made in the 2.30 trot and pace or the 2.40 trot and pace.

About the Grounds.
Wednesday night the crowd seemed loath to depart. Many lingered about the grounds until dusk visiting the various attractions and all seemed to wear the look that said, "we have had a pleasant time today and are not ready to leave the scene of such enjoyment."

Up to noon of Wednesday the entry clerks had harder work than ever before, so fast did prospective exhibitors arrive at the grounds. On Tuesday, Mrs. Elizabeth Edgerly of South Paris was able to do most of the work alone, but Wednesday morning she had to call for help and Mary Pierce of Paris was assigned to help her.

When the crowd commenced to arrive for the big day, Mrs. Edgerly gave up the work of entering exhibits and took charge of one of the ticket windows.

Others in the box office were Winifred S. Starbuck and Walter Dennison. Ralph L. Trask and Stanley Wheeler exchanged pasteboards for coin at the grandstand and John F. Swain and Charles Titcomb received the tickets at the entrances of the stand. Walter Bonney was ticket taker on the small end of the grounds, Roy Cole being on the first day, but being put over to the big day Wednesday to help L. P. Burbank of South Paris.

The Hall Exhibits.

Ladies' underwear and a bureau scarf are shown by Mrs. James Usher, Norway; special battenberg and laced work by Mrs. M. H. Merriam, Norway; while other articles on the art embroidery table are drawn work handkerchiefs by Mrs. F. D. Swan, Norway; Ida M. Bonney, South Paris; Mrs. Sarah Packard, West Paris; Mrs. J. J. Emery, South Paris; Mrs. W. P. Lombard, Oxford; Marguerite Swan, Norway; and Mary Butters, South Paris. Mrs. J. W. Chute, South Paris, has special laced work and Mrs. Frank Clark, South Paris, a piece of art embroidery, as does Mrs. A. E. Norseworthy and Mrs. Hattie Packard, Norway. Mrs. Norseworthy also shows several embroidered towels.

Another who has pieces of art embroidery is Olive M. Thayer, Paris Hill. There are many pillow slips, both plain and embroidered, which have spaces along the tables. Among the most noticeable is a picture throw by Mrs. C. J. Bean, 18 years old, of 8 Gothic street, South Paris.

Fanny Forbes, South Paris, has a handsome piece of shadow embroidery, as does Mrs. Lester Ashton, Norway. Mrs. Minnie McDaniels, Norway, has lacy embroidery, while next to them is an unusually large collection of eyelet embroidery. S. B. & Z. S. Prince show a netted tidy, Mrs. H. L. Libby and Mrs. S. B. Cummings, Norway, have art embroidery, and Mrs. M. W. Sampson shows many waltz works with eyelet embroidery. Mrs. Arthur Record, Oxford, exhibits an embroidered night-dress, and Mrs. John Lasselle, Norway, shows a hat of eyelet embroidery.

Of fancy pillows there are plenty, 19 being shown. As many patterns and ideas from the Eastern Question Girl to emblems of secret societies. The exhibitors are Mrs. J. J. Emery, South Paris, who has four; Mrs. E. S. Pitts, Norway, who has three; Lois Hollis, West Paris; Grace Jubb, South Paris; Della Mattor, Norway; Mrs. Frank Lovjoy, South Paris; Mrs. Rosetta Ryerson, West Sumner; Mrs. H. L. Libby, Norway; Ruth Bolter, South Paris; Jennie Bonney, Mrs. James F. Usher and M. E. Record, Norway.

Patchwork and silk quilts in many colors and hung from the rafters of the hall are given names by their owners. Mrs. Albert Richardson, Norway, shows one of the log cabin type, Mrs. S. E. Jackson, South Paris, one of the patchwork; Mrs. Benj. Bacon, Norway, one of silk with lace border; silk ones by Mrs. F. C. Lord, Louise E. Hollis, West Paris; and Mrs. Harry Dudley, Buckfield; a silk comforter of multicolored colors by Mrs. Lester Ashton, Norway; a silk one, Etta M. Hollis, West Paris; log cabin patchwork by Mrs. F. W. Perkins, South Paris; quilt, Katie Ward, Norway; patchwork comforters, Mrs. C. D. Morse, North Norway, and Mrs. Lester Ashton, Norway.

A log cabin quilt with more pieces in it than one cares to undertake the task of counting is hung by Sophie Bissbe, South Paris, with the information that the owner thereof is more than 50 years old. A silk comforter by Mrs. T. P. Richardson, Norway, and a silk quilt by Mrs. E. Louise Durgin, South Paris, hang over the millinery exhibit of Mrs. Gertrude Allen on the west side of the hall. Mrs. South Paris, has a log cabin quilt, and there are also patchwork quilts by Mrs. Franklin Maxime and three by Mrs. Nancy Whitman of South Paris, who is 82 years old. M. H. Matrin, Norway, has a knit bedspread and R. B. Bradbury, Norway, a woolen quilt.

A bedspread made out of the warp yarn more than 50 years ago is shown by Mrs. S. M. Glover, South Paris. Mrs. Hattie Packard, Norway, has a woolen quilt hung over the millinery exhibit of photographs and on the other side is a quilt by Martha Andrews, Norway. A blue shade comforter of calico patchwork by Mrs. E. F. Bicknell, Norway, was given a prominent place, as was a Beryl Wright, S. S. Bonnet, South Paris, has a patchwork comforter and Mary Butters, South Paris, a handmade bedspread of white.

That there are more than one brand of quilts is shown by looking at the table cover shown by Lena Dyer of Fryburg, a piece of work which occupies about five square feet on the wall. There is a handsome silk sofa afghan by Mrs. T. P. Richardson, Norway, and another by Helen Millett, Norway.

H. L. Rand, Worcester, Mass., has a large space showing the latest novelty and one which will in time displace the wearing of birds' feathers on the head. Flowers of stylish women. It is the feather flower which is made from feathers, but is growing in popularity for decorative purposes on millinery. They are everlasting. Mr. Rand says, are made in every size and scented for the purchaser. N. Dayton Bolster has the front end of the upper hall facing the grounds, and the wall is lined with rugs and carpets which he carries in stock at his South Paris store.

The fall and winter styles of millinery are shown on the upper floor by Mrs. Gertrude Allen, Norway, and the shapes show that the Merry Widow hat of the summer and spring has been displaced by structures much smaller. Tags attached to the hats show prices are unusually low for stylish millinery.

Joe Hay comes from Oxford with quite a collection of Mexican hand work embroidery and fancy goods, and his exhibit attracted considerable attention. Mexican drawn work, and including about everything in the shape of cloth, is displayed by K. Kaim, whose main office is at 44 Hudson street, New York. Collette's patches for granite ware and hot water bottles is demonstrated at the head of the stairs leading to the right of the hall. A patch stock through the left and gripped on the other side does the business.

The drawn rugs and carpets entered by exhibitors are hung on the walls at the sides of either entrance from the lower hall.

While prospective exhibitors were hustling in the lower hall on Tuesday to get things in shape before the crowd commenced to get at noon, upstairs too, there was something doing and by the direction of Mrs. T. P. Richardson and Mrs. E. E. Andrews things were kept moving so fast that by 10 o'clock in the afternoon everything in the fancy work and household goods section on the left side of the hall were in shape, properly tagged as to description and owner.

Such hustling surprised the early comers, who have in years past seen the exhibits in this particular section about half completed on the second day. By noon Tuesday, both Mrs. A. E. Norseworthy and Mrs. Richardson had finished their work and had nothing else to do but explain to the men reporters what some of the fancy articles were.

The only exhibit of hand painted chinaware is by Mrs. H. F. Andrews of Norway, who shows plates, plaques, cups, saucers and every other article made of that ware and decorated with scenes in woodland and mountain. Mrs. Andrews is known throughout the county as one of the best adept in chinaware decoration in this section.

Next to Mrs. Andrews' exhibit is one of burnt work by Mrs. Martha Anderson of Norway and mosaic work by Mrs. Hattie Packard, also of Norway. Mildred Cole, Norway, has a handbag made of beads and said to be 150 years old. B. F. Howe, West Paris, R. F. D. No. 3, has a snake cane made of wood which is a good piece of work even if it is unappreciative to those with sensitive nerves.

The burnt work on the left of the stairs and opposite the fruit display is that of W. L. Merrill, the Norway photographer the three sides of his space being covered with photographs of different kinds and nearly all of them familiar subjects of the Norway people.

Merrill explains the merits of his work turned out at his studio in Norway.

Wednesday's attendance was the largest ever, according to Secretary Frothingham, who said Thursday morning that 15,000 people were present, the day before. Those figures were about 200 more than last year, which was a record breaker.

In the pressroom it was said Thursday morning that a good many persons had lost personal property during the crush on Wednesday. It was said that several women lost watches pinned to their waists, others lost handbags, and several men claimed to have been touched in their pockets for what bills they had. Secretary Frothingham when asked about the matter, said that one man reported to the office that he had lost his pocketbook which contained only notes and private paper. It was announced from the Judge's stand Wednesday afternoon that someone had lost a pocketbook and the finder was requested to return it to the office in the main building. The name of the loser was not named. Considering that there were about 15,000 people on the grounds the loss of a pocketbook, which is not to be traced to anything, but possible carelessness, speaks mightily well for the police protection afforded by the management.

The Vote of Oxford County.

This is the way we voted Monday—

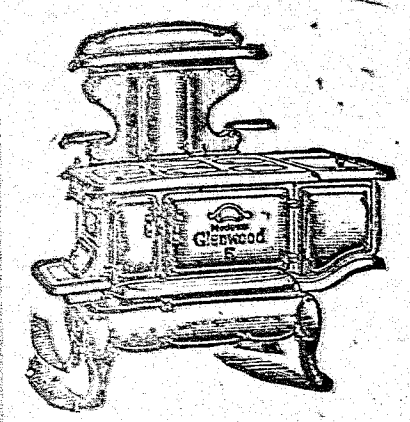

Vote for Governor.

Potato Diseases New to Maine.

As a result of investigations conducted by the Maine Agricultural Experiment Station, Fusarium dry rot or wilt and "black-leg," two diseases of the potato stem and tuber not hitherto credited to the State, have been found to exist in several localities. Since one of these is distributed by means of the seed and the other is probably spread in the same manner, it is important that the growers at once learn to recognize them.

The appearance of affected plants above ground is somewhat similar in both diseases. The plants appear more or less withered, varying with the severity of the attack. The branches and leaves, instead of spreading out normally, tend to grow upward, forming a somewhat more compact top, frequently with the young leaves incurled and folding up along the mid-rib. Later they may become lighter green, or even yellow, and the whole plant gradually dies. If the disease progresses rapidly, the stem may fall over quite suddenly and wilt.

In the case of the Fusarium disease, the underground portions of the stem will show discolored or brown, dry patches or streaks. The roots are brittle and weak, and in some cases are covered with a white, pink, or even reddish growth. The Fusarium disease also attacks the tubers, and experiment has shown that it is by this means that the disease is spread. Like the late blight, it causes a dry rot of the tuber, but the first symptoms of disease are nearly always at the stem end, and in the form of a brownish or blackened ring a short distance below the surface.

At this stage the tuber may appear perfectly sound and healthy externally. Later there is a general discoloration of the flesh along a decided shrinking of the tuber. The skin becomes wrinkled around the stem end, and the tuber becomes very light and often nearly as hard as wood. Infected potatoes may appear perfectly sound when dug in storage, and come out as described above. If introduced into the soil, the disease may persist for some time. It is caused by a parasitic fungus.

Black-leg, as its name indicates, is characterized by a pronounced blackening of the stem below ground, usually running up an inch or more above the surface. Sometimes, under favorable conditions, the ink-black discoloration may follow up a portion of the stem for several inches above ground. During the active progress of the disease the invaded tissues show a soft, wet decay, but this apparently does not attack the fibrous portions of the stem.

Later the diseased portions may dry out, but the stem retains most of the black color. Usually the seed tuber is entirely decayed by a soft rot, and not infrequently, if young tubers have been formed before the complete invasion of the stem, they are also affected in the same manner. Almost without exception the disease begins at the stem at its junction with the seed tuber and progresses upward. Similar troubles elsewhere have been attributed to a fungus, but there is every reason to think that the disease here described as "black-leg" is of a bacterial nature.

Watch for First Symptoms of Weakness

It is generally accepted as a fact that coughing or any evidence of irritation which becomes at all pronounced of the throat or bronchial pipes is an indication of weakness, usually nothing more or less than a late stage of vitality. How often this slight irritation is followed by a disagreeable cough and finally tuberculosis? Nature has her signposts ready at every corner, pointing the way if men will only "stop, look, listen." Restore the vitality with rest, easily digested food and sunshine. The cough stops; the voice again has a full resonant ring and all danger is passed. Continued weakness would have given tuberculosis a chance to grow upon an irritated surface and then...

Now comes our comparison. Just watch these cows and you will see whether or not they continue to cough are not cows that are working hard and lack nutrition. Begin with a small increase of feed; watch out until they begin to put on new vigor and vitality. Sometimes the flow of milk will increase at the start, and the feed does not increase the store of energy. With these cows more time will be required, but in most cases time will do the business. This is no theory with me; it will in most cases work out.

As You Make It.

What a difference there is in what two people bring home from a vacation. One comes back tired, disgusted, bored. He has spent his money and doesn't feel that he has much of anything in return. Another comes back all radiant with the riches which he has drunk in and absorbed during every moment of his vacation. He comes back rejuvenated, refreshed, inspired, a new creature, with a new grip upon life. The cowboys, the brainiacs have been swept away from his jaded brain. He has been made over anew. Life means more than ever before. His dimmed ideals have been brightened and sharpened, his ambition renewed.

Then there are few people so trained they can see pleasure right along with their work. They have a continual feast of good things. These are the people who are sure to enjoy their vacation, for they have learned to make the most of life and grasp the desirable things whenever they find them. If a vacation comes in their way they know just how to get the most out of it; for they are not above seeing beauties in the little occurrences that make up the greater part of every vacation and every life.

The New Sleeve.

The sleeve of the year has arrived, however, and it is not any too late. Nevertheless, it is smart, and it is the thing which accords best with the vogue of long-drawn-out effects. Primarily, it is the conventional coat sleeve so reduced that at the top it must be set plainly or with a minimum amount of fullness in the elbow and from elbow to wrist be all but tight-fitting. It extends far over the hand, and in every outline is utterly divergent from the overworked "half short" sleeves of voluminous out.

HARRISON.

Eagle Rock Lodge.

Eagle Rock Lodge is the euphonious title of one of the new camps on the shore of Long lake in South Harrison about four miles from Harrison village. It is owned and occupied by Peirson S. Page, M. D., and family.

The present equipment of the camp consists of a bungalow and a few tents with several row boats and canoes. Dr. Page is a graduate of the University of New York and is director of physical training, medical visitor and instructor in physiology and hygiene at Phillips Academy, Andover, Mass. A summer school for tutoring a class of young students and for general athletic recreation is projected for next year. A number of Dr. Page's student friends are assisting him this year in completing the establishment of the camp.

Dr. Page and three of his assistants started on a recent Tuesday morning for a canoe trip to the seashore. The canoe carried besides its four occupants, a good outfit of rations and for camping over night. The first night was spent at Raymond Cape; second night at South Whidman on the Presumpscot, third night to mouth of river and Underwood Spring in Falmouth. He was advised it would be perilous to attempt the navigation by canoe of the devious channels of Casco Bay and the seashore, but with a map and a compass he resolved to proceed. From Underwood Spring at 8.30 a. m. our voyagers launched into the salt water and had a pleasant and safe trip to Harpswell at 11.30.

With wind and tide in favor the party were at New Meadows river at 4 p. m. By trolley they came back to the Underwood Spring, stopping over night. Thence to Portland, thence to Lake station by train at 10 a. m., from there by canoe to the "Images" near Frye's Island, 10.15 a. m. Last by two hours started at 2 p. m. and came through the Songo and Long lake to the home camp at 6 p. m. Saturday.

It was a notable adventure for four men in so frail a vessel. The length of the trip is about 24 miles. There were rapids and dams at Great Falls and Westbrook to "carry," but no accidents occurred.

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure, apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.

When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

TO CURE NEURALGIA.

Necessary to Treat Nerves Both Internally and Externally.

Neuralgia is a disease of the nerves, and to give immediate relief to the pain and effect a complete cure, it is necessary to use both internal and external treatments. This explains the remarkable success of Neuralgic Anodyne in curing neuralgia, no matter how acute or long standing.

It gets right at the nerve centers. A small dose is taken internally, thus soothing and quieting the whole nervous system. At the same time, a little is rubbed on the affected part and goes through the pores of the skin to the aching tissues, giving relief to the distressing pains.

A 25c bottle of Neuralgic Anodyne will do a world of good, as it cures neuralgia, headache, toothache, and in fact all aches and pains where the nerves, muscles and tissues are affected and aching.

Large bottle for 25c. Money returned if it does not cure. The Twitchell-Champlin Co., Portland, Me.

Golden Wedding.

Mr. and Mrs. Franklin Porter of South Paris observed their golden wedding anniversary Sept. 15 by a family dinner with only the immediate relatives as guests. Both Mr. and Mrs. Porter are among the best known residents of Paris and during the day received calls and congratulations from friends. Mr. and Mrs. J. H. Porter of Boston were the only relatives from away present at the anniversary dinner. Francis and John Porter and their families were the remaining guests.

Mr. Porter was born October 18, 1820, and was the son of one of the early settlers of the town, John Porter, who was prominent in his day in town affairs. In early life Franklin Porter was a sub-contractor engaged in work connected with Grand Trunk railroad and in later years he made farming his principal occupation.

In 1858 Mr. Porter married Martha M. Millett of Norway and the four sons born to them are still living: Francis and John Porter of South Paris, Junot Porter of Wisconsin, and Joseph H. Porter of Boston. It is remarkable that in all the married life of Mr. and Mrs. Porter they have never had a single quarrel.

The Drawing Contests.

Tuesday's Drawing

One class in existence Tuesday afternoon, the 7 foot 6 inches and over class. Time, 5 minutes. Moses Young was the first man with a good looking yoke that did some good work. Distance, 60 feet, 3 inches. Those belonging to Charles P. Fiske, 1st; Whitman, 2d; Mills, 3d. In the one-year-old class were those belonging to William F. Young of Norway which drew 165 feet, 11 inches. H. M. Fiske & Son, North Waterford, with one pair went 516 feet and with another 14 feet, 2 inches. Fiske, 1st; Whitman, 2d; Mills, 3d.

In the one-year-old class were those belonging to William F. Young of Norway which drew 165 feet, 11 inches. H. M. Fiske & Son, North Waterford, with one pair went 516 feet and with another 14 feet, 2 inches. Fiske, 1st; Whitman, 2d; Mills, 3d.

Prizes, Young \$12, Roes \$8 and Glover \$4.

Committee, C. F. Blanchard, Wilton, and C. H. Bonney, Sumner.

The heavy horses were late coming in but in all the drawing contests there was a good number entered. R. M. Morrill of Norway is here with his horses. Mr. Morrill got \$98 in prizes with them at the State fair.

E. D. Millett, Norway, with a pair weighing 2375 broke a chain at 16 feet, first pull but after it was replaced they walked off easily with the load, going down to the end of the "course" and came back a good distance, breaking another chain before the five minutes were up. They like the first team to the load back to position, in fact a little more than they did, going 166 feet, 3 inches, or 18 inches farther than Abbott's team.

R. K. Morrill, Norway, was next with a pair weighing 2392. They were driven the load as steady as some of the other teams but they certainly did some good pulling and not without results as will be seen in the awards.

W. F. Peery of Greenwood had a pair weighing 2370 that started off well and pulled well without much noise being made and at total of 112 feet, 10 inches was the result.

W. A. Hersey's pair, of Norway, weighed 2400. The lightest team but good pullers that lugged the load with honors, though not as far as some. This was the last team to pull, two other entries were made but the horses were too heavy for this class. Hersey's record was 88 feet, 18 inches. The committee on horse drawing was Geo. Stevens, Waterford; Guy Curtis and Chas. E. Freeman, Norway.

Prizes—E. D. Millett, \$12; Geo. G. Abbott & Sons, \$10; R. K. Morrill, \$8.

The three entries in the 2800 and under class were pulled off after the 2400 class. Weight of load, 4932 pounds. Time, 5 minutes.

Albert Richardson, Norway, with a team weighing 2760 started the load off unsteadily and didn't get down and pull together very well but got in some good pulls nevertheless. The hames strap broke at a pull at the return start at the lower end of the "pike," but after the repairs were made they took a good long pull making a total of 114 feet, 7 inches.

A. J. & F. L. Millett of Norway with a pair weighing 2510 pounds started off steadily and worked more together, getting in some long, steady pulls, covering 161 feet, 8 inches.

Howard Knightly of Norway with pair weighing 2711 was the third and last team, though the first time they had pulled at a fair start-off and with two steady straight pulls went to the end of the course and before they had finished had covered 146 feet, 7 inches.

Prizes—Millett, \$12; Knightly, \$10; and Richardson, \$8.

Wednesday's Drawing.

Wednesday afternoon a large crowd gathered about the "pulling ground" and witnessed the drawing of cattle and horses. There was great interest taken in the contest and it was shown by the remark which one man made when asked if he was going home. He said, "Not until this drawing is finished if it isn't for three weeks, the old cow will get along all right if she isn't milked."

The first class of cattle to draw was the 7 foot, 6 inch and under class. Chas. P. Roes of Rumford Center had one yoke that were driven by R. K. Morrill. The load weighed about 5000 pounds and they didn't move it readily at the start but later got in some good pulls and carried it some distance amid the cheers of the crowd. In all they covered 94 feet and 7 inches.

B. F. Glover of East Sumner had a pair driven by Frank Blanchard that worried the load along 64 feet and 3 inches but didn't get down to business in a real good shape.

A yoke belonging to McIntire and Morrill girthed 6 feet 11 inches and 7 feet and driven by R. K. Morrill were the same ones that did some handsome work at the State fair and took premiums but here they didn't seem inclined to exert themselves for honors. They went 80 feet.

Moses Young of Hartford with a pair girthed 7 feet 3 inches and went 82 feet, 3 inches from the starting place and besides that Moses, who is a popular teamster, made lots of fun for the spectators.

L. W. Whitman of South Paris had a pair that girthed 6 feet 11 inches, with a try of 2 1/2 minutes got the load 5 feet, 9 inches and quit.

A yoke belonging to C. S. Hayes of Oxford, girthed 7 feet, 3 inches and 7 feet, 4 inches, driven by D. Hall of Bethel made some good pulls and covered 117 feet, 7 inches.

Prizes, 1st, Hayes; 2d, Roes; 3d, Glover.

The horse drawing was in the 3000 class and some good work was done with a load weighing 5232 pounds.

Albert Richardson of Norway with a team weighing 2760 that were driven by George W. Wood made some long steady pulls and went 97 feet, 5 inches.

A. M. Daniels of South Paris with a pair weighing 3000 pounds that were rather nervous covered 57 feet, 2 inches.

R. K. Morrill of Norway with a rugged looking team weighing 2940 pounds did good work, making some long pulls, and went in all 125 feet, 3 inches.

Charles P. Roes of Rumford Center with a pair weighing 2840 that walked up and down the course with the load did the record breaking work of the day and in their five minutes had covered 227 feet, 8 inches.

Prizes, 1st, Roes; 2d, Morrill; 3d, Richardson.

While the horses were drawing Wednesday afternoon, the cattle committee started in with steers and held their contest just below the regular place.

In the three-year-old class with a load of 2800 were those belonging to H. A. Robbins, Norway, distance drawn 89 feet, 7 inches; R. K. Morrill, Norway, 89 feet, 6 inches; Floyd Varney, Sumner, 89 feet, 1 inch; J. A. Sturtevant, South Paris, 88 feet, 4 inches, and E. M. Fiske & Son,

Winners—1st and 2d Roes, 3d, Morrill.

The town teams of horses and cattle were shown Wednesday morning and made a good showing. Norway, Paris and Hartford had teams of oxen. Norway had two teams of draft horses and Paris one team.

The Paris string of cattle was represented with one yoke each owned by D. P. Curtis, L. R. Everett, Henry D. Hammond, M. A. Bessey, L. W. Whitman, Frank Richards, Fred H. Corbett, Bert Cummings.

In the Norway team there were more than enough entered than required for the town team of oxen. They belonged to N. E. Ordway, F. S. Gammon, Arthur Meserve, McIntire & Morrill, Chas. P. Roes, C. G. French, George G. Abbott & Sons, 2 yokes, D. A. Watson, Howard Knightly, H. E. Lovejoy.

The 2-year-old class there was not enough for a team. Z. W. Mills of Norway had one pair, George G. Abbott & Sons two pairs. Will F. Young of Norway had one pair of well matched yearlings.

In the 2-year-old class Hartford had a team owned by O. E. Turner, one pair, C. Russell, two pairs, Moses Young, one pair, B. F. Glover, two pairs.

The Hartford town team of oxen were owned this year by O. E. Turner, two yokes, Moses Young, four yokes, C. C. Russell, one yoke, B. F. Glover, one yoke.

The Norway town team of 3-year old steers belonged to R. K. Morrill, Frank

Pike, Arthur Robbins, two pairs, Chas. Holt, Irvin Mills.

The first team of Norway draft horses were owned by C. B. Cummings & Sons, two pairs, A. Richardson, A. J. & F. L. Millett, C. F. Freeman, two pairs, R. K. Morrill, W. F. Young.

The second Norway team of horses was owned by A. D. Millett, Howard Knightly, W. L. Abbott, E. S. Abbott, G. L. Curtis, J. H. & J. S. Millett, two pairs, V. R. Mills.

The Paris town team of horses belonged to W. T. Knightly, Almon Churchill, A. W. Walker, A. M. Daniels, Chas. & S. O. Colby, Richard Gates, Frank Bethel.

Directly after the showing of the town teams, several yokes of the oxep and steers that were entered in the matched cattle class remained in position, and were judged by the committee, also the matched teams of work horses. Then followed the exhibition of the different grades of cattle.

About the Grounds.

Charles F. Boober, George F. Hathaway and a policeman from Lewiston are in attendance at the fair as special police.

Guy C. Bouteille of Paris has a three-year-old registered Shetland pony that he has a lot of attention. Its color is bay; name Twinkle, register number 7594; sire, Rex Barrington; dam, Minnehaha. Guy says she will trot a mile in seven minutes. She weighs about 235 pounds.

Gerald McDaniels of Norway has a coon cat and Angora kittens exhibited near the poultry that attracts considerable attention.

George P. Downing has his stand of damaged shoes near the entrance to the hall, where they find a ready sale.

Percy Nevers has his usual line of soft drinks, cigars, etc., at the booths on each end under the grandstand.

Deere Potato diggers, Eclipse potato diggers and Shaker diggers with fore carriage are interesting implements for any farmer. The Root & Van Dervoort gasoline engines are working finely and furnish all power needed for this one exhibit. With this can be seen a Tilting table wood saw. Last but not least is the Foster Steel Stanchion, constructed much upon the plan of a common stanchion, but being entirely of steel is both strong and sanitary. W. H. Emery and H. G. Jordan are constantly in attendance and willing to explain everything.

Rough House at So. Paris Station

At the South Paris station, Friday night, a general rough and tumble took place between a crowd of fairgoers and the fair grounds. They got in such earnest style that deputy sheriff W. L. Farrar was called, who after quite a struggle in which he got knocked about more or less, succeeded in arresting seven of the offenders, who were taken before Judge W. F. Jones, Saturday afternoon, at Concord hall, where there was a good sized audience, composed largely of fairgoers.

It was brought out in the evidence that 11 quarts of liquor was disposed of by the crowd on the train. Only one of the bunch arrested got away without sentence. This was William Wilkins, against whom there was two charges, agitation and disturbing the peace and assault with intent to kill. During the evidence showed that a revolver had been used only in one of the show performances, and wasn't carried as a weapon.

John Fitzgerald for intoxication and disturbing the peace was fined \$5 and costs, amounting in all to \$29.89. George T. Vique, intoxication and disturbing the peace \$22.99, interfering with the officer \$22.00.

Andrew Doyle, intoxication and disturbing the peace \$22.99, interfering with the officer \$22.99. These three didn't pay the fines and were taken to jail.

Wm. Canfield paid on the two charges two fines of \$5 and costs amounting in both cases to \$22.99. George Prescott was discharged on the intoxication charge and paid \$22.99 for interfering with the officer.

Ralph Smith was found guilty on the charge of intoxication and given the same fine as the others. He appealed and furnished cash bond of \$50.

E. F. Smith, esq., appeared as attorney for one or more of the men.

This is the first time in many years that such an outbreak has been brought about by the Oxford County fairs.

A Use for Abandoned Farms.

Abandoned farms in Oxford and Knox counties, which have been reclaimed by fairs have turned out a great success, and property is to be found in all of the old settlements. The demand for abandoned farms has increased greatly and throughout this section they are being quickly bought up at fair prices.

The new settlers are solving in a practical way both the abandoned farm and the farm help questions, for they stand ready to buy any farm in the vicinity that is offered within their respective means and they are furnishing a class of farm laborers with whom their American neighbors are well satisfied.

Men who have made a success of the farms have sent for their fellow countrymen and on their arrival they take up new farm land and pay for it through their work for the men who pay their passage. In this way one after another of the abandoned sections, where farms have gone to waste and buildings had tumbled down, are being replaced by thriving communities with finely kept and money-making farms.

In addition to those settled on farms, there are at least 150 Finnish young men who make their headquarters with the college. They hire out for the woods in the winter and work on the farms in the summer.

These new settlers, coming from Finland in the northern part of the Russian empire, where the winter's sun shines two hours out of the 24, can see in these abandoned farms opportunities for a living beyond what is possible to find in their own country and for a home of their own in free America. These farms, which, in the early settlement of the state, were the abodes of prosperous families, have been cast aside as almost worthless by the descendants.

Has Lived Many Years.

Thomas C. Randall now of Franklin, Mass., when leaving in the old home in Parsonfield or Porter and now the oldest in Franklin, Mass., and if he lives till Jan. 5, 1909, will be 92 years of age, and has never been confined to the bed by sickness on the house one day and as free from bodily ailments as any boy and never uses tobacco, strong tea or coffee.

When asked to guess his age, nine out of ten put him 72 or 73. When told his age he dodges as if struck in the face. For exercise he walks one, two and three miles and is wheeling and throwing wood into the cellar to pack, but he is not desired to do it. His son, Dr. C. H. Randall, has a great practice here in Franklin and many other towns.

Many of the Randall families of America and the Provincias met in Providence, R. I., Dec. 10, 1907, to arrange for future gatherings. There was a large delegation from many states. Records and statistics have been traced back in England 600 years. An association was formed and officers chosen and it was decided to meet in Boston, Sept. 15, 1908, at How Hall, new Century building, 117 Huntington avenue, Boston, from 12 m. until 10 p. m. All of the Randall name are invited.

To Rid a House of Flies.

A good way to rid your house of flies is to mix in a small watering pot equal parts of crude petroleum, or if that is not attainable use kerosene, and sprinkle all out-houses, barns, garbage piles, drains with the mixture. Then sprinkle the windowsills and wipe the netting on your screens with a cloth wet with kerosene, and you will soon see the flies disappear. This, too, will prevent you from being bothered by mosquitoes, which were so troublesome this year.

Do this thing quite often during the summer months, say two or three times a week.

The kerosene not only drives the flies away, but when the places where they breed are sprinkled the eggs will be destroyed and the household will be saved from this miserable pest. This method has been tried and found excellent.

HARRISON.

Corn Husking and Corn Roast.

On Friday evening, August 11, an invited party of relatives gathered at the home of Mr. and Mrs. Maurice Lakin for a corn husking. The evening was very pleasantly spent in the barn, husking and singing until 10.30, when all gathered around the festive board for the usual supper of baked beans, brown bread and pumpkin pie. A flashlight was taken of the jolly group as they sat at supper.

The same party were entertained on Saturday evening by Mrs. Roland Woodbury, her home. A fireplace was built in the pasture and around a bed of glowing embers each one roasted corn and toasted marshmallows. Games and a photograph concert concluded the evening's festivities.

The fairs began to arrive Friday from the State fair and since then they have been coming in steadily. Monday morning there was a large number of them ready for business, many others are still ready and more coming in. All fairs are well represented and many new features are among the lot, including a Philippine village. A curiosity in the shape of a sea turtle captured off the coast of Maine will no doubt attract many people.
